3.85 pH

The Wine

Our 2012 Maroon Reserve Cabernet Sauvignon was harvested from our home vineyard in the Coombsville District of Napa Valley. It is a little cooler in the southern end of the valley, and we benefit from this by being able to ripen the grapes slowly and evenly. This wine was aged in French oak barrels for 30 months before bottling.

The Story...

The wine has rich, alluring aromas of dark fruit and balanced oak. On the palate, the wine is bold, showing dark fruit flavors, nicely balanced with rich and creamy oak tones. The finish is long and lingering.

The Bottom Line

Drink Upon Release through 2025.
